Renee-

As requested by Jenifer.

It would be really helpful for us to get feedback on salients. Are we submitting enough information at the correct level? Do you want titles? Do you still want individual contact info? Any feedback is welcomed and we can revise. Thank you in advance.

Please note we have a late breaking addition. Amanda P. got a today for request for a briefing to ECOS today as noted below. Amanda has been doing a skills marketplace project for OECA for the last few months.

## **Ex. 5 - Deliberative Process**

## **Ex. 5 - Deliberative Process**

**Cooperation with DNREC on Safe Drinking Water Act Violation**

Region III and DNREC are working cooperatively to have Mountaire Farms supply a permanent alternate source of drinking water to residents in Millsboro, Delaware. DNREC issued a Notice of Violation to the Mountaire Farms facility on November 2, 2017 placing Mountaire Farms in violation of an existing EPA 1431 Order on Consent to limit discharges that may contribute to levels of nitrate in the ground water. EPA is working with Mountaire Farms to discuss terms to amend the existing Administrative Order to cover additional affected residences. A meeting between DNREC and EPA is being scheduled January 31, 2018 to coordinate the draft language to amend the administrative order on consent.

## Ex. 5 - Deliberative Process

Kate McManus

Acting Director, Water Protection Division

EPA Region 3
